MAIN IDEA

When God says wait, God wants to grow our character and faith.

STARTER

What “normal” pre-COVID activity do you miss the most?

DISCUSS

How has God said “wait” to you in this season of COVID-19? What has been your response?

READ

Have someone in your group read Lamentations 3:19-26 and discuss:

- What does this passage say about God and what He wants for your life?
- What benefit does God say there is to wait on Him?
- In your own words, what is the difference between passively waiting on God and actively waiting on God?

When God says “wait,” which attitude do you feel most tempted by?

- I wonder if God is real.
- I worry God will not take care of me.
- I whine about what I do not have.

Describe a situation in your life where you wish you would have waited on God. What did you learn from that experience?

APPLY

Share a belief or action in your life that would need to change for you to embrace waiting on God more actively.

Spend some time praying for each other to trust God in your circumstances.
